

Every Farmer—his own Vet!

25

HORSE MEASURE

CATTLE SYRINGE

No Farmer should be without one. The above pint Syringe is supplied complete with three different nozzles; a long flexible one for injecting antiseptic solutions into the womb, and two shorter ones.

ONCE DONE—DONE FOR GOOD.

Mr. William Cavanagh, Land Steward to the Bellevue Estate, Ferrisbank, Waterford, writes:—"I have tested the latest PIG ROOTING FORCEPS (as supplied by Bells) as a substitute for ringing pigs and I find it most satisfactory and very much more efficient than the old method of "ringing pigs."

TOOTH RASP FOR HORSES

RUBBER SYRINGE
For the milk fever cure; used for injecting solutions into the udder, and can be used for the womb.

CASTRATING TONGS

The very latest and most scientific instrument; very powerful.

TROCAR and CANNULA
For "punching"; promptly relieves the beast of acute Hooven or Blow.

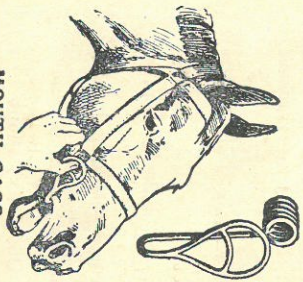

CASTRATING KNIFE

For "punching"; promptly relieves the beast of acute Hooven or Blow.

FLEAMING LANCE
For bleeding; usually the jugular vein in the neck is selected for this purpose.
